

## Retraction notice

In 2019 SAGE became aware of author misconduct concerning suspected redundant publication of 22 articles published in *International Journal of Damage Mechanics* and *Journal of Composite Materials*. SAGE and the journals' Editors immediately launched an investigation and found that the following articles contain significant overlap with previously published articles by at least one of the authors listed on each of the articles below. Therefore, SAGE and the journals' Editors have decided to retract the following articles for reasons of redundant publication.

### **International Journal of Damage Mechanics**
